

**The Maryland School for the Blind**  
**CONSENT FOR BLOOD WORK**  
**Health Center - School Year 2011-2012**

We use Franklin Square Hospital for MSB students' blood work. The hospital outpatient laboratory sends a technician to MSB to draw the blood based on the tests your child's physician orders. An MSB staff member familiar with your child is present during this process. The Health Center staff will contact you when your child is scheduled for blood work so you may be present if you wish.

It will be necessary for your child's physician to complete the lab slip for the blood tests requested. If the blood tests are requested by one of the MSB consulting physicians, the lab slip will be completed at MSB.

Attached is a list of insurance providers that LabCorp accepts for Medical Assistance. Please check that your child's insurance is included on the list. LabCorp will bill you or your insurance provider for the laboratory tests. If you have any billing questions, please call LabCorp at 1-888-522-2677.
